## Important Changes to Child Care Subsidy

August 31 was an important date for families receiving the child care subsidy and for child care providers who accept the subsidy. The Maryland State Department of Education (MSDE) centralized all Child Care Subsidy (CCS) case management functions on that date. What will this change mean for customers and child care providers?

The CCS program moved from the Prince George's County Department of Social Services (DSS) offices to a centralized processing center called CCS Central. This Center offers families easy access to application or subsidy/voucher information at a toll-free number where any customer service representative is able to help them. Customers can also access an automated telephone menu 24 hours a day, 7 days a week to get details about their application or case. Applications and verification documents can be sent to CCS by mail, FAX or email, so customers will no longer have to go to the local DSS office to drop off documents.

CCS Central will include both the payment processing staff who currently work with child care provider payments and the Help Desk representatives and Eligibility Specialists who work with CCS Customer and applicant calls, eligibility processing and case management. Having case management and provider payment processing in the same place will promote accuracy and consistency in payment processing for child care providers. Since all staff are in one location, child care providers should find that any case questions or challenges are addressed even more quickly than before since the payment processing staff will have access to case management specialists in the same facility. Providers will use the same number and contact information they currently use, and should see no difference in CCS payment processing.

Families needing the Subsidy application can print one at [http://www.marylandpublicschools.org/msde/divisions/child\\_care/subsidy/ccs.htm](http://www.marylandpublicschools.org/msde/divisions/child_care/subsidy/ccs.htm). The application can then be printed, completed, signed and sent to CCS Central by FAX or mail.

## Happy Birthday to the Resource Center

This year marks the Resource Center's 25th Anniversary! We have seen many changes in our community and our world during this time. The child care community has been a huge contributor to our success. We want you to be a part of our celebration. We are kicking off a year long celebration on Wednesday, October 7 at Watkins Park with child care providers and the children in their care. Please join us at the playground across from the Carousel at 10 a.m. Hayrides, free lunch and fun are planned for you and the children in your care, so please join us. RSVP with Shannon at 301.772.8420, extension 1002.

## A Night for Family Providers

What's on your mind? Let's talk about it on October 1 at 7:00 p.m. at the Resource Center. All Family Child Care Providers are invited to join us to discuss issues that impact their programs. Come out and enjoy dessert and network with other Family Child Care Providers. You'll be glad you did!

## New MSDE Training Requirements

Several new training requirements will be going into effect soon! Almost everyone will be affected by one or more of these new regulations. The regulations include:

### **New ADA Requirement: Including All Children and the Americans with Disabilities Act (ADA).**

All family child care providers, including assistant teachers in large family homes, and all child care center directors, teachers and assistant teachers are required to take this class

### **Medication Administration Training for Family Child Care Providers**

All family child care providers must now be trained in Medication Administration. If you have already taken the Medication Administration training, you will not need to take it again. PGCRC will offer the Medication Administration Training each month. Medication can only be administered to a child in care by an individual who has completed the approved training.

### **Developmental Screening: On Track: All Aboard for Developmental Progress Overview**

This four hour class will be required for all family child care providers, center directors and lead teachers in child care centers.

### **Breastfeeding Support**

Staff in any program approved for infant and toddler care (group and family programs) must complete approved training in breastfeeding practices. PGCRC will offer a two hour COK course, Supporting Breastfeeding Families in Child Care.

## On Track: All Aboard for Developmental Progress Overview Maryland's Early Care and Education Developmental Screening Program

A new regulation takes effect in July 2016 which requires all licensed child care centers and family child care homes to conduct a developmental screening on children birth through five years old. All directors, teachers and registered family child care providers will be required to take the Developmental Screening Overview training to ensure that they understand the requirements of the new regulation, know how to implement the screening tool they choose and to help providers learn best practices in partnering with and communicating screening results to families. The Resource Center will offer **On Track: All Aboard for Developmental Progress Overview** monthly so that all providers have a chance to complete the training before the regulation goes into effect.

The MSDE recommended screening tools include: **Ages and Stages Questionnaires Third Edition (ASQ-3); Brigance Early Childhood Screen III; Developmental Indicators for the Assessment of Learning Fourth Edition (Dial 4); Early Screening Inventory – Revised 2008 Edition (ESI-R); and Best Beginnings Developmental Screen.** PGCRC has all of the tools available for providers to review during normal office hours.

MSDE will cover the initial cost for the developmental screening tool. Providers must apply for the tool they choose by December 31, 2015.

## LOCATE Can Help!

Hundreds of parents use LOCATE: Child Care to search for child care in Prince George's County each month. Did any of them call your program? LOCATE is a valuable marketing tool for your program, but it is only as good as the information you supply. The more families searching for child care can learn about your program, the more likely they are to call you. Is your information current? Do you list all the ages you are licensed to care for? The hours you provide care? Cost of care? Special services you provide? The more information families can obtain about your program, the more likely they are to call your program. We have LOCATE update questionnaires for both family and group programs available at the Resource Center. Pick one up the next time you are here for training, or download one from our website, [www.childresource.org](http://www.childresource.org).

## Directions to the Resource Center

The Resource Center is located at 9475 Lottsford Road, Suite 202, Largo, MD 20774. Take exit 17A off the Capital Beltway/495 onto Landover Road toward Upper Marlboro. After approximately one mile, turn right on Lottsford Road. We are in the first brick building on the left.

## The Resource Center and the ADA

Prince George's Child Resource Center encourages the involvement and participation of individuals with disabilities in our programs, services and activities. Please let us know how we can best meet your needs as we comply with the Americans with Disabilities Act in making accommodations to promote and encourage your participation.
