ABOUT PRINCE GEORGE'S CHILD RESOURCE CENTER

Each year the Resource Center provides family support services to over 1,500 families and training to over 1,200 child care providers, parents and human services workers touching the lives of nearly half a million children since 1990. We do this through home visits, child development education, links to community services, and adult education.

In a diverse county that is home to many single-parent and low-income families, struggling new immigrants and working families of all races, the Resource Center strives to meet their differing needs.
